The specialist of technical aids
for deaf and hard of hearing

Modern & Jenile International Design

About us

Jenile is a French company created by a deaf person for the deaf and hard of hearing. Because deaf and hard of hearing people have specific needs ! So who can know their problems better than a deaf person ?

Our mission :

Conceptualize, develop and manufacture tools that are closest to the needs of the deaf, hard of hearing and visually impaired.

A tailor-made service

In France, Jenile representatives are available to our customers to carry out free needs assessments, demonstrations and quotations. We perform the installation when necessary and train our customers to use these new tools when they need them.

We have an after-sales service by phone, video and LSF to answer all !

In case of breakdown, 2 year warranty products are exchanged to new !

PRACTICAL LIFE

Phone Alert Pack

379€⁹⁹

PackPh

Travel Pack

299€⁹⁹

PCKTR13

Connected luminous alarm

249€⁹⁹

RLC20

The connected luminous alarm clock centralizes all the alerts and warns you with different pictograms of everything that happens in the house. You can set two different alarms for the couples. It has a dawn simulator function that imitates the sunrise and a light flash. In option : Possibility to have vibrations thanks to the vibrating cushion. Accessible to visually impaired.

Call Button / Long-Distance Call Button

89€⁹⁹

TLC13 / TLC14

109€⁹⁹

The call button is used to alert a person that they are needed. To warn a person over a very long distance, the TLC14 is necessary, and with the simple push of a button, flash and vibrating Jenile receivers transmit the signal to the person equipped. Especially useful when a sick person wants to call someone in another room for example.

Acoustic Telephone / Fax Transmitter

129€⁹⁹

EMACtelf18

This telephone and fax transmitter can be installed on the telephone or fax.

This allows the user to be notified by all Jenile receivers.

Alarm Clock

130€⁹⁹

RL19

This alarm clock has 3 settings: audio, vibrating and tricolor light. This small portable alarm clock is very effective with its powerful vibrations. It is wireless and has a rechargeable battery. The "snooze" function allows you to repeat the alarm. To be placed under the pillow !

SMS Flasher

145€⁹⁹

MF17

Metal hanging bracket for a door (doorbell theft protection) + doorbell + alarm clock bell receiver. Accessibility for all in hotel rooms or temporary apartment or house rental. An essential pack for travel, hospitalizations and holidays !

WARNING DEVICES

Flash Cube

160€⁹⁹

CBM20

The light cube centralizes all the different types of alarms with a color code associated with each type. (4 colours - Red: emergencies; Green: bells and call button; Blue: phone calls, PCs, mobile phones and baby monitoring systems; White: presence detection). It is possible to adjust the duration of light diffusion in order to guarantee greater comfort for the user. Small and stylish, it takes up little space and is very practical.

Pocket Vibrator + PC and Téléphone Call Transmitter Charger Base

199€⁹⁹

VP19/VPWS19

349€⁹⁹

The pocket vibrator receives all alerts from Jenile transmitters. 4 vibration patterns associated with 4 colors to indicate the origin of the alert. It can be sold alone or with its rechargeable base. The rechargeable base of the vibrator is a PC and a telephone call transmitter, it has two different outputs.

This product is suitable for people who are deaf and visually impaired.

Fixed Flash 8 Diodes

390€₉₉

FF8I14

This system groups all the alerts in the house and is compatible with all Jenile products. Each alert corresponds to a diode. The central unit is to be installed in the main rooms. It has a very powerful flash and allows you to differentiate between alarms: whether they come from a PC or a telephone call, as well as the same type of alarms such as the intercom bell and the doorbell.

Flash Plug

129€₉₉

FP19

Light and sound system to plug in. Connected to all Jenile transmitters. For more comfort, it contains different ring tones and it is also possible to adjust the volume. Ideal for people with hearing loss ! Each color represents an information (4 colors - Red: emergencies; Green: bells and call button; Blue: phone calls, PCs, cell phones and baby monitoring systems; White: presence detection).

Vibrating Cushion

63€₉₉

COV15

Sleep in peace ! This vibrating cushion is placed under the pillow and plugged directly into the Jenile receivers to be alerted of everything that happens in the house while you sleep. As soon as the flash receives a signal, it switches on and transmits the alert to the vibrating cushion.

DOORBELL SYSTEMS

Home Pack

502€₉₉

Pack Home

Visio-Door

189€₉₉

VSP15

The Visio-Door is mounted directly on the front door of an apartment or house. It includes a doorbell transmitter and a screen: the bell is transmitted to flash and vibrating receivers. A screen is installed near the door to see who is behind the door (replaces the peephole). Photo recorder (up to 100 photos).

Video-portal

499€₉₉

VDP19

The Video-portal is fixed directly to the portal of a house. It includes a bell transmitter and a screen: the bell is transmitted to flash and vibrating receivers. A screen is installed near the door to see who is at the gate of the house. Video and photo recorder. Can be used through a smartphone application.

Waterproof doorbell

139€₉₉

SPE17

This bell allows the user to be notified by Jenile receivers when a person rings the doorbell. Be careful, it will not trigger a ringing tone. Compatible for external use.

Doorbell

109€₉₉

SP14

This bell allows the user to be notified by Jenile receivers when a person rings the doorbell. Be careful, it does not activate a ringing tone. Compatible for internal use.

Acoustic Bell and Intercom Transmitter

129€₉₉

EMACint18

This transmitter is installed next to your bell or intercom. It transmits a signal to Jenile's flashing and vibrating systems.

SAFETY & SECURITY

Security Pack

372€⁹⁹

Pack Sécu

Smoke detector interconnected flash light

139€⁹⁹

DDF120

This smoke detector is specially designed for deaf people. It is the only smoke detector equipped with an alert flash indicating the need to change the battery. The smoke detector is equipped with a system of sound and light that are activated in case of smoke detection. The alert is transmitted to all vibrating and luminous receivers Jenile.

Gas Detector

119€⁹⁹

DDG18

This gas detector is specially designed for deaf people. Equipped with an integrated transmitter, it transmits a signal to the flashing and vibrating receivers as soon as it detects a gas emission too important. People who are deaf or hard of hearing are therefore immediately informed of the danger thanks to their light receivers and vibrating via a red flash and a very fast vibration.

Flood Detector

139€⁹⁹

DEI14

This flood detector is specially designed for deaf people. Equipped with an integrated transmitter, it transmits a signal to the flash and vibrating receivers as soon as it detects a rise of the level of the water. People who are deaf or hard of hearing are therefore immediately informed of the danger thanks to their light receivers and vibrating via a red flash and a very fast vibration.

Motion Detector

119€⁹⁹

DDM14

This motion detector detects any presence in its living space (indoor or outdoor) and transmits a signal to flashing and vibrating receivers. Thanks to this detector, you will no longer have to wait hours looking at the door to find out if a family member has returned, but you will also no longer worry about finding your young child outside or your broken-in apartment when you get up !

Door Opening Detector

89€⁹⁹

DOF13

This detector is installed on the frame of a door. It allows the user to be warned by flashing and vibrating receivers when the door opens. It is very useful to avoid the surprise caused by the intrusion of a person into your workspace or living space that you had not heard entering.

BABY SURVEILLANCE

Baby Pack

332€⁹⁹

PackBB

Baby cry detector

99€⁹⁹

DBC16

Baby cry detector, connected to the flashing and vibrating Jenile warning devices. Our new version allows you to be alerted when baby cries for more than five seconds. This version thus avoids unwanted alerts.

Connected and Vibrating Baby Surveillance Camera

239€⁹⁹

BBC18

Our new connected baby surveillance camera is available on our website www.jenile.com.
